APPLYLENS SAMPLE DOCUMENT • FICTIONAL NOTICE

TECHNOVA SUMMER INTERNSHIP 2027

Software Engineering & Applied AI Internship Programme

Notice ID	TN-INT-2027-014	**Application deadline**	15 March 2027
Internship period	1 June–31 August 2027	**Mode**	Hybrid, Bengaluru

1. About the Programme

TechNova Labs invites applications from eligible undergraduate students for its 2027 summer internship programme. Interns will work with engineering mentors on software projects, data systems, and applied artificial intelligence. This fictional notice was created specifically to test document processing and requirement extraction in ApplyLens.

2. Eligibility Requirements

Academic programme: Applicants must be currently enrolled in a full-time B.Tech or B.E. programme in Computer Science and Engineering (CSE), Information Technology (IT), Electronics and Communication Engineering (ECE), or Artificial Intelligence and Machine Learning (AI&ML).

2. Eligibility Requirements (continued)

Minimum academic performance: Applicants must have a cumulative GPA (CGPA) of at least 7.0 on a 10-point scale at the time of application. Applications from students below 7.0 CGPA will not be considered.

Expected graduation year: Applicants must be graduating in 2027 or 2028. Students graduating before 2027 or after 2028 are not eligible for this internship cycle.

2. Eligibility Requirements (continued)

Programming skills: Applicants must demonstrate working knowledge of at least one of Python, Java, or C++. Familiarity with data structures and algorithms is required.

Preferred skills: Experience with Git, REST APIs, SQL, React, or machine-learning libraries such as scikit-learn or PyTorch is preferred but not mandatory.

Citizenship: Applicants must be Indian citizens and provide valid proof of identity at joining.

3. Documents to Submit

Applicants must upload a current résumé, an academic transcript showing CGPA, a college identity card, and a short statement describing one software or academic project. Incomplete applications may be rejected.

4. Selection Process

Shortlisted applicants will complete an online technical assessment covering programming fundamentals, data structures, and problem solving. Candidates who clear the assessment will attend a technical interview.

5. Internship Details

Selected interns will receive a stipend of INR 18,000 per month. The internship runs for twelve weeks, from 1 June 2027 through 31 August 2027. Interns are expected to work approximately 30 hours per week.

6. How to Apply

Submit the application through the fictional TechNova Careers portal at careers.technovalabs.example/internships before 11:59 PM IST on 15 March 2027. This URL is illustrative and is not a live application website.

Testing note: This is a fictional sample, not a real vacancy. It intentionally includes explicit CGPA, branch, graduation-year, skill, and other eligibility statements. Do not use it as an actual job advertisement.
